

ROUND BALER 120 (Fixed Chamber)

Sturdy & Reliable

More Coverage-Compact-Heavy Bales

Auto Lubrication for Trouble Free Operation

Suitable for Stalks and Straw

Saves Labour, Time and Money

ROUND BALER 120 (Fixed Chamber)

Auto Lubrication System

- Auto lubrication system covers 11 points of the chains with oil capacity of 1.5 litres tank.
- Flow of oil can be regulated by adjusting the travel of piston
- System works every time when tailgates closes

Cutter Knife

- Hydraulic solenoid operated cutter knife
- 13 knives for cutting the straw as per requirement
- Suitable for cutting straw for fodder & making silage
- Higher bale density and enhance silage quality

Pickup

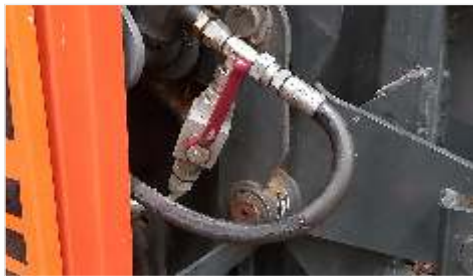

- 2 meter wide pickup with 5 bar, closely spaced 120 steel tines to make sure more collection from the windrow
- Pickup is hydraulically controlled for easy transportation
- Gauge wheel along with adjustable cam for height adjustment

Bale Chamber

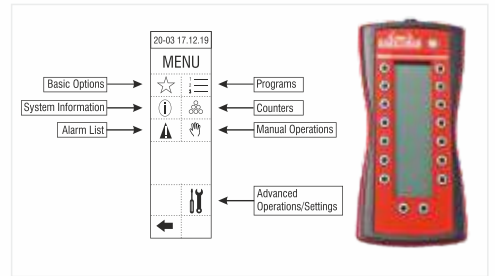

- 18 Rollers with Heavy Duty Ribs for providing optimum traction and compression during operation
- Roller consistently compresses straw for making quality high density bales

Tail Gate Safety Lock

- Useful for holding the Tail Gate of the baler during service and maintenance in order to prevent accident
- Keeps the Tail Gate of the baler intact during field operations to prevent the accident

Electronic display controller

- Control unit allows the operator to have full and immediate access to all functions like; bale density, auto binding, cutting device on/off, rpm control sensor etc.

Density Control Unit

- Easily Density control during field operation
- 7 different type of Density can be controlled

Binding Mechanism

- Machine is equipped with net and twine
- Binding mechanism ensures proper bale shape and less losses

Draw Bar with Unique PTO Joint

- Two level draw bar adjustment for proper positioning of the machine at field
- Easy turning during filed operation
